

5 - Gang Wall Plate, White Brass Finish, 120V 15A, Three Decorator Openings, GFCI and USB

- 5-gang configuration with three decorator openings, one GFCI, and one USB position
- Solid brass construction with white brass finish
- Rated for 120 V service at 15 A
- IP20 rated for dry indoor, non-waterproof environments
- UL listed
- 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-5-D-D-D-G-U is a 5-gang wall plate finished in white brass, configured with three decorator-style openings, one GFCI receptacle opening, and one USB outlet opening. It suits residential and light commercial installations requiring a combination of standard, ground-fault, and USB charging positions within a single gang assembly.

The plate is rated for 120 V service at 15 A and carries an IP20 rating, indicating suitability for dry indoor environments. Construction is solid brass with a white brass finish, providing a durable, professional appearance.

The device is UL listed and carries a 1-year warranty.
