

5-Gang Combination Wall Plate, Two Duplex and Three GFCI Openings, White Brass, 120V/15A

- Five-gang configuration with two duplex and three GFCI openings
- Rated 120V at 15A for standard residential and commercial circuits
- Brass construction with white brass finish
- IP20 rated for dry, non-waterproof indoor environments
- UL listed
- 1-year warranty coverage

OVERVIEW

The C-VTG-WB-5-D-D-G-G-G is a 5-gang combination wall plate finished in white brass, configured with two duplex receptacle openings and three GFCI device openings. It is intended for commercial and residential electrical installations where multiple outlet types are required within a single gang arrangement.

The plate is rated for 120V/15A service and carries an IP20 rating, suitable for dry indoor environments. Constructed of brass with a white brass finish, it is built for durability across multi-device installations.

The unit is UL listed and backed by a 1-year warranty.
