

White Brass 5 - Gang Wall Plate, Two Duplex, Two GFCI, Toggle, 120V/15A

- Five-gang configuration with two duplex openings and two GFCI openings
- Includes one toggle switch opening for combined device control
- Brass construction with white brass finish
- Rated for 120 V / 15 A residential electrical service
- IP20 rated for non-waterproof, indoor dry-location use
- UL listed for verified safety compliance

OVERVIEW

The C-VTG-WB-5-D-D-G-G-T is a five-gang combination wall plate finished in white brass, configured for two duplex receptacles, two GFCI receptacles, and one toggle switch. It is intended for residential supply applications where a single cover plate must accommodate multiple device types within a common electrical box arrangement.

Constructed from brass with a white finish, the plate is rated for 120 V / 15 A service and carries an IP20 rating, suitable for standard indoor dry-location installations.

The device is UL listed and backed by a 1-year warranty.
