

5 - Gang Combination Wall Plate, 120V/15A, White Brass Finish

- Five-gang layout with two decorator openings, one GFCI, one switch, one USB port
- Brass body with white brass finish for a uniform residential appearance
- Rated for 120 V service at 15 A current draw
- IP20 rated, non-waterproof, for dry indoor locations only
- UL listed for verified electrical safety compliance
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-5-D-D-G-S-U is a five-gang combination wall plate finished in white brass, built for residential and light commercial wiring installations. The configuration combines two decorator openings, a GFCI outlet, a toggle switch, and a USB charging port on a single mounting assembly, consolidating multiple device types into one location.

Constructed of brass with a white finish, the plate is rated 120 V at 15 A and carries an IP20 rating, classifying it as non-waterproof and suitable for dry indoor environments.

The device is UL listed and backed by a 1-year warranty.
