- Rated for 120V circuits at up to 15A
- IP20 rated for protection against solid objects over 12mm
- UL listed for compliance verification
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-WB-5-D-G-G-G-S is a 5-gang combination wall plate finished in white brass, configured with one decorator opening, three GFCI receptacle openings, and one switch opening in a single ganged assembly. It is suited for residential and light commercial installations where multiple device types must be consolidated into one wall plate location. Constructed from brass, the plate is rated for 120V circuits at up to 15A and carries an IP20 rating, indicating protection against solid objects greater than 12mm with no specific moisture resistance. The assembly is UL listed and backed by a 1-year warranty.
