

5 - Gang Combination Wall Plate, 15A 120V, White Brass Finish, UL Listed

- Five-gang configuration with one decorator opening, three GFCI openings and one toggle opening
- Constructed of solid brass with a white brass finish
- Rated for 15 A at 120 V operating voltage
- IP20 environmental rating for standard indoor use
- UL listed for electrical safety compliance
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-5-D-G-G-G-T is a five-gang combination wall plate finished in white brass, configured with one decorator opening, three GFCI openings and one toggle opening. It is intended for residential supply applications where a single cover plate must accommodate multiple device types within a common gang box.

The plate is rated for 15 A at 120 V and constructed of brass. It carries an IP20 environmental rating and is classified non-waterproof, suitable for standard indoor installations.

The assembly is UL listed and backed by a 1-year warranty.
