OVERVIEW

The C-VTG-WB-5-D-G-G-S-S is a white brass 5 - gang wall plate configured with one decorator opening, two GFCI openings, and two switch openings. It is intended for installations where a single plate must accommodate multiple device types within a common gang box, suiting both commercial and residential wiring layouts.

The plate is constructed of brass with a white brass finish, rated for 120V service at 15A, and carries an IP20 environmental rating for non - waterproof, indoor applications.

The device is UL listed and backed by a 1 - year warranty.
