

Five-Gang Wall Plate with Decorator, GFCI, Switch and Two Toggle Openings, 15A 120V, White Brass

- Five-gang layout with decorator, GFCI, switch and two toggle openings
- White brass finish over solid brass construction
- Rated 15 A at 120 V for standard residential circuits
- UL listed for compliance verification
- IP20 rated, non-waterproof, for dry indoor locations
- Backed by a 1-year warranty

OVERVIEW

This five-gang wall plate is configured with decorator, GFCI, switch and two toggle device openings, allowing a single plate to serve multiple device types in one electrical box. It is finished in white brass over a brass base and intended for residential supply applications requiring a mixed-device wall plate assembly.

The plate is rated for 15 A at 120 V and carries an IP20 environmental rating, classified as non-waterproof for indoor dry-location use. It is UL listed and backed by a 1-year warranty.
