

5-Gang Wall Plate, One Decorator, One GFCI, Three Toggle Openings, 120V 15A, White Brass

- Five-gang layout with one decorator, one GFCI, and three toggle openings
- Brass construction finished in white brass
- Rated for 120V service at 15A current draw
- IP20 rated, non-waterproof environmental classification
- UL listed
- 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-5-D-G-T-T-T is a 5-gang combination wall plate finished in white brass, configured with one decorator opening, one GFCI opening, and three toggle-style openings. It is intended for residential supply applications where a single cover plate must serve multiple device types within one gang box opening.

The plate is constructed of brass and rated for 120V service at 15A. It carries an IP20 ingress rating and is classified as non-waterproof, making it suitable for standard interior installations rather than wet or damp locations.

The device is UL listed and backed by a 1-year warranty.
