

5 - Gang Wall Plate Cover, White Brass Finish, One Decorator, One GFCI, Three USB Openings, 120V

- Five-gang configuration with one decorator, one GFCI, and three USB openings
- Brass construction with a white brass finish
- Rated IP20 for standard interior, non-waterproof environments
- Compatible with 120V, 15A electrical circuits
- UL listed for compliance verification
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-WB-5-D-G-U-U-U is a 5-gang wall plate cover finished in white brass, configured with one decorator opening, one GFCI opening, and three USB openings. It is intended for commercial and residential installations that require a multi-device cover plate combining switch, GFCI, and USB access in a single location.

The plate is constructed from brass and rated IP20 for indoor, non-waterproof use, compatible with 120V, 15A circuits. This configuration suits interior walls where mixed device types are grouped under one cover.

The product is UL listed and carries a 1-year warranty.
