

5 - Gang Wall Plate, Four General Openings and One Switch, 120V/15A, White Brass

- Five-gang configuration with four general openings and one switch opening
- Solid brass construction with white brass finish
- Rated for 120V, 15A service
- IP20 rated for dry indoor use
- UL listed for code-compliant installation
- Backed by a 1-year manufacturer warranty

OVERVIEW

This 5-gang wall plate assembly is configured with four general device openings and one switch opening (GGGGS), intended for residential and light commercial wiring installations where multiple devices are combined into a single multi-gang plate. The build-your-own format lets contractors specify device layout to match job-site requirements.

Constructed from brass with a white brass finish, the plate is rated for 120V, 15A service and carries an IP20 rating, suitable for dry indoor environments.

The assembly is UL listed and backed by a 1-year warranty.
