

White Brass 5 - Gang Combination Wall Plate, GGGGT Configuration, 120V/15A

- Five-opening GGGGT layout: four duplex receptacle openings plus one toggle switch opening
 - Brass construction with a white brass finish
 - Rated for 120V circuits at up to 15A
- IP20 rated for non-waterproof, dry indoor locations
 - UL listed for compliance verification
 - Backed by a 1-year manufacturer warranty

OVERVIEW

The White Brass 5 - Gang Combination Wall Plate in GGGGT configuration is a multi-device cover plate designed for residential supply applications requiring five openings in a single gang arrangement. The GGGGT layout accommodates four standard duplex receptacle openings and one toggle switch opening, suited to consolidated outlet and switch installations in residential or light commercial settings.

Constructed from brass with a white brass finish, this wall plate is rated for 120V/15A circuits and carries an IP20 rating, indicating protection against solid objects greater than 12mm with no specific moisture resistance, appropriate for standard indoor dry-location installations.

The plate is UL listed and backed by a 1-year warranty.
