

5-Gang Wall Plate, White Brass, Three GFCI and Two Switch Openings, 120V/15A

- Five-gang plate with three GFCI openings and two toggle switch openings
- Brass construction with white brass finish
- Rated for 120 V circuits at 15 A
- IP20 rating for dry indoor use
- UL listed
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-WB-5-G-G-G-S-S is a 5-gang combination wall plate finished in white brass, configured with three GFCI receptacle openings and two toggle switch openings. It is suited for commercial and residential electrical installations where multiple device types are grouped at a single location.

Constructed from brass with a white finish, the plate is rated for standard 120 V circuits at 15 A and carries an IP20 rating, indicating suitability for dry indoor environments.

The device is UL listed and backed by a 1-year warranty.
