

5 - Gang Wiring Device Plate, White Brass Finish, 120V/15A, UL Listed

- Five-gang configuration for consolidated wall device layouts
- Brass construction with white brass finish
- Rated 120V at 15A for standard residential circuits
- IP20 rated for indoor, non-waterproof installations
- UL listed for code-compliant residential wiring
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-5-G-G-G-S-T is a 5-gang wiring device plate in a white brass finish, built for multi-device wall installations in residential supply applications. Its brass construction and five-position layout allow contractors to consolidate switches, receptacles, or control devices at a single wall location.

The plate is rated for 120V operation at 15A and carries an IP20 rating for indoor, non-waterproof use. It is UL listed and backed by a 1-year warranty, suitable for standard residential and light commercial wiring projects.
