

5 - Gang Wall Plate, White Brass Finish, 3 GFCI and 2 Toggle Openings, 120V/15A

- Configured with three GFCI receptacle openings and two toggle switch openings
- Constructed of brass with a white brass finish
- Rated for 120V operation at 15A
- IP20 rated for dry interior locations
- UL listed
- 1-year warranty

OVERVIEW

The White Brass 5 - Gang Combination Wall Plate is a multi-device cover plate configured with three GFCI receptacle openings and two toggle switch openings. It is intended for residential supply installations requiring mixed device configurations within a single gang arrangement, such as combined receptacle and switch circuits.

The plate is rated for 120V operation at 15A and constructed of brass with a white brass finish, providing a durable surface for standard interior wall installations. It carries an IP20 rating and is classified non-waterproof, making it suitable for dry interior locations only.

The assembly is UL listed and backed by a 1-year warranty.
