

5 - Gang Combination Wall Plate, White Brass, Three GFCI, Toggle and USB Openings

- Five-gang configuration with three GFCI, one toggle, and one USB opening
- Finished in white brass over a brass base material
- Rated for 120 V, 15 A branch circuit applications
- IP20 rated, non-waterproof, for dry interior locations
- UL listed
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-WB-5-G-G-G-T-U is a five-gang combination wall plate finished in white brass, configured with three GFCI receptacle openings, one toggle switch opening, and one USB opening. It consolidates multiple device types into a single plate assembly for residential and commercial wiring installations.

The plate is constructed of brass and rated for 120 V, 15 A circuits. It carries an IP20 environmental rating and is designated non-waterproof, suited to dry interior mounting locations.

The assembly is UL listed and backed by a 1-year warranty.
