

5 - Gang Wall Plate, White Brass Finish, 120V 15A UL Listed, GFCI/Switch/Toggle/USB Openings

- Five-gang wall plate with two GFCI openings, one switch, one toggle, and one USB opening
- Supports 120V circuits at up to 15A
- Constructed of brass with a white brass finish
- UL listed for electrical safety compliance
- Rated IP20 for non-waterproof, indoor environments
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-WB-5-G-G-S-T-U is a five-gang wall plate in a white brass finish, built for residential electrical installations requiring multiple device openings in a single frame. The configuration includes two GFCI openings, one switch opening, one toggle opening, and one USB opening, allowing a mix of device types within one gang assembly.

The plate is constructed of brass and rated IP20 for non-waterproof, indoor use. It supports a 120V, 15A circuit and carries UL listing for electrical safety compliance.

The product is backed by a 1-year warranty.
