- Backed by a 1 - year manufacturer warranty

OVERVIEW

The C-VTG-WB-5-G-G-S-U-U is a build-to-order 5-gang wall plate assembly in a white brass finish, configured with two GFCI openings, one toggle switch opening, and two USB openings for combined power, switching, and charging functions in a single wiring device location. It is intended for residential and commercial installations requiring a unified device layout.

The assembly is rated 120V/15A and constructed of brass with a white brass finish. It carries an IP20 environmental rating and is classified non-waterproof, suited to standard interior wiring applications.

The device is UL listed and backed by a 1-year warranty.
