

5 - Gang Wall Plate, White Brass Finish, Two GFCI and Three USB Openings, 120V 15A

- White brass finish over brass construction
- Two GFCI openings and three USB openings in a 5-gang layout
- Rated for 120 V service at up to 15 A
- IP20 environmental rating, non-waterproof classification
- UL listed
- 1-year warranty

OVERVIEW

The C-VTG-WB-5-G-G-U-U-U is a 5-gang wall plate finished in white brass, configured with two GFCI openings and three USB openings for combined power and charging access. It is intended for residential supply installations where multiple device types are consolidated into a single multi-gang plate.

The plate is constructed of brass and rated for 120 V service at up to 15 A. It carries an IP20 environmental rating and is classified non-waterproof, suitable for standard interior wiring applications.

The assembly is UL listed and backed by a 1-year warranty.
