

5 - Gang Wall Plate, White Brass Finish, One GFCI and Four Toggle Openings, UL Listed

- Five-gang configuration with one GFCI opening and four toggle switch openings
 - Brass construction with a white brass finish
 - Rated 120V at 15A for standard residential circuits
- IP20 rated for non-waterproof, dry interior use
 - UL listed
 - Backed by a 1-year warranty

OVERVIEW

This is a five-gang wall plate assembly built from brass with a white brass finish, configured with one GFCI opening and four toggle switch openings for multi-device residential and light commercial installations. It is intended for standard wall box mounting where multiple switches or a switch-and-GFCI combination are grouped on a single plate.

The assembly is rated for 120V service at 15A and carries an IP20 environmental rating, indicating it is intended for dry, non-waterproof interior locations. Brass construction provides a solid mounting surface and a consistent finish across all five gang openings.

The device is UL listed and carries a 1-year warranty.
