

Vintage 5 - Gang Wall Plate, GFCI, Two Switches, Two Toggles, White Brass Finish

- Configured for one GFCI, two switches, and two toggle switches
- Brass construction with a white brass finish
- Rated for 120 V service at 15 A
- IP20 rating for indoor dry-location use
- UL listed
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-WB-5-G-S-S-T-T is a 5-gang wall plate assembly built to accommodate one GFCI receptacle, two switches, and two toggle switches in a single mounting arrangement. It suits commercial and residential wiring projects where several device types must be grouped together on one wall location.

The plate is constructed of brass with a white brass finish and is rated for 120 V service at 15 A. It carries an IP20 rating, indicating suitability for standard indoor dry locations, and is classified Non-Waterproof.

The assembly is UL listed and backed by a 1-year warranty.
