

5 - Gang Combination Wall Plate, GFCI, Switch and Toggle Openings, White Brass, 120V/15A

- 5-gang configuration with GFCI, switch and three toggle openings
- White brass finish over solid brass construction
- Rated for 120V, 15A residential circuits
- IP20 environmental rating for non-waterproof, indoor installations
- UL listed device assembly
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-5-G-S-T-T-T is a 5-gang combination wall plate finished in white brass, configured with one GFCI opening, one switch opening and three toggle openings to accommodate mixed device types within a single faceplate. It is intended for residential supply installations where multiple controls or outlets are grouped at one location.

The plate is constructed of brass and rated for 120V, 15A circuits with an IP20 environmental rating for non-waterproof, indoor use.

The assembly is UL listed and carries a 1-year warranty.
