

5 - Gang Wiring Device Plate, White Brass Finish, 120V 15A, UL Listed

- 5 - gang configuration with GFCI, switch, toggle and dual USB openings
- Solid brass construction with white brass finish
- Rated 120V at 15A for standard residential branch circuits
- IP20 rated for dry indoor, non - waterproof installations
- UL listed for code compliance verification
- Backed by a 1 - year manufacturer warranty

OVERVIEW

The C-VTG-WB-5-G-S-T-U-U is a 5 - gang wiring device assembly built for residential electrical installations requiring multiple device types in a single plate. The configuration combines one GFCI opening, one switch opening, one toggle opening and two USB charging openings, allowing a single wall plate to serve outlet, switching and charging functions.

The assembly is constructed of brass with a white brass finish and is rated for 120V operation at 15A, matching standard residential branch circuits. It carries an IP20 environmental rating, suited to dry indoor locations, and is classified Non - Waterproof.

The device is UL listed and carries a 1 - year manufacturer warranty.
