

5 - Gang Combination Wall Plate, GFCI and Four Toggle Openings, White Brass, 120V 15A

- Five-gang configuration with one GFCI and four toggle switch openings
- Finished in white brass over solid brass construction
- Rated for 120 V, 15 A residential circuits
- IP20 rated for indoor dry-location use
- UL listed
- Backed by a 1-year warranty

OVERVIEW

This five-gang combination wall plate is finished in white brass and configured with one GFCI opening and four toggle switch openings. It is designed to cover multiple control points within a single electrical box, suited for residential supply applications where consolidated device coverage is required.

Constructed from brass, the plate is rated for 120 V, 15 A circuits and carries an IP20 rating, indicating protection against solid objects greater than 12 mm for standard indoor dry-location use.

The device is UL listed and backed by a 1-year warranty.
