

5 - Gang Wall Plate, Three Single Openings and Two Blank, White Brass, 120V/15A

- Five-gang wall plate with three single-device openings and two blank positions
- White brass finish over solid brass construction
- Rated 120V at 15A for standard branch circuit wiring
- IP20 rating for non-waterproof interior use
- UL listed for compliance verification
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-5-S-S-S-U-U is a 5-gang combination wall plate finished in white brass, configured with three single-device openings and two blank gang positions. It is intended for commercial and residential electrical installations where a mix of active and unused gang positions is required within a single unified plate.

Rated for 120V/15A service, the plate is suited to standard North American wiring configurations. The brass construction provides durability for interior installations, and the assembly carries an IP20 rating for non-waterproof environments.

The plate is UL listed and backed by a 1-year warranty.
