

8 ft. Power Cable with Inline Switch, 18 AWG 2-Conductor

- 8 ft overall cable length for flexible fixture placement
- 18 AWG 2-conductor wiring for stable power delivery
- Integrated inline switch for on/off control at the cable
- Compact 6 × 3 × 3 in packaged dimensions
- Lightweight construction at 1.4 lb
- Backed by a 1-year warranty

OVERVIEW

The CA-AC2-Switch is an 8-foot power cable with an integrated inline switch, designed for use in residential and commercial electrical applications. The inline switch provides convenient on/off power control without requiring access to the connected fixture or outlet.

Constructed with 18 AWG 2-conductor wiring, the cable is built to maintain conductivity and minimize voltage drop under load. The 18-gauge wire gauge is suited for low-to-moderate current draw applications typical of LED lighting and similar devices.

SPECIFICATIONS

OPTICAL	
LED Lifetime	50,000 h
ELECTRICAL	
Wire Gauge	18 AWG
MECHANICAL	
Product Dimensions	6 × 3 × 3 in
Weight	1.4 lb
ORDERING	
Warranty	1 y

APPLICATIONS

LED fixture power connections	Residential lamp and fixture wiring	Commercial display lighting hookups	Countertop and under-cabinet lighting control
