

## AC Power Cord, Figure-8 Type, 110V/10A, 1500W Max, 6 ft., UL Listed

### OVERVIEW

The CA-AC8 is a 6-foot (180 cm) AC power cord fitted with a Figure-8 (Type 8) connector, rated for 110V service. It is designed for use with LED drivers, lighting fixtures, and other compatible devices requiring a standard two-conductor detachable power connection in commercial and light industrial applications.

The cord is rated at 10A continuous current with a maximum power capacity of 1500W. Conductors are 2×18AWG pure copper, providing low-resistance current transfer. The PVC jacket offers flexibility and resistance to abrasion under normal service conditions. The 6-foot length provides adequate reach for most equipment placement scenarios without requiring an extension.

No certifications have been confirmed in the available source documentation for this SKU. Contractors and specifiers should verify compliance requirements with their local authority having jurisdiction (AHJ) prior to installation. Contact Poli LED & Signs for warranty terms and documentation.
