

14 AWG Automotive Wire Cable, Red, Sold by the Foot

- 14 AWG conductor sized for automotive electrical connections
- Red jacket for quick circuit identification during installation
- Constructed to resist wear, abrasion, and vibration
- Sold by the foot for custom-length wiring runs
- Backed by a 1 year warranty

OVERVIEW

The CA1-14R-500 is a 14 AWG automotive wire cable designed for vehicle electrical wiring applications. Sold by the foot, it is suited for a range of automotive electrical connections where a standard gauge conductor is required.

The cable is constructed to resist wear, abrasion, and vibration, making it appropriate for the demands of automotive environments. The red jacket provides straightforward visual identification during installation and maintenance, supporting safe and organized wiring practices.

The cable is backed by a 1 year warranty.
