

## 14 AWG 2-Conductor Red/Black Wire, UL2468, 300V, 3.5×7.0mm OD, 100 ft Roll

### OVERVIEW

The CA2-14-100 is a 14 AWG, 2-conductor parallel wire supplied on a 100 ft (30.5 m) roll. Conductors are color-coded red and black for polarity identification, making it suitable for low-voltage DC power distribution, LED driver wiring, and general-purpose electrical connections in commercial and industrial installations.

The wire is rated for 300V and 80°C, with a stranded copper conductor structure of 41/0.24TS and a cross-sectional area of 1.85 mm<sup>2</sup>. PVC insulation is used on both conductors, with an overall parallel (flat) profile measuring 3.5×7.0 mm OD. The UL2468 designation applies to the cable construction.

No certifications have been confirmed in the available source documentation. Contractors should verify compliance requirements against applicable local codes prior to installation.

### SPECIFICATIONS

<b>Input voltage</b>	300 V	<b>IP rating</b>	IP44
<b>Operating temp</b>	80 °C
