

## 14 AWG 2-Conductor Red/Black Wire, UL2468, 300V, 3.5x7.0mm OD — 20 ft Roll

### OVERVIEW

The CA2-14-20 is a 14 AWG, 2-conductor parallel wire supplied on a 20 ft roll, intended for low-voltage power distribution, LED driver connections, and general wiring applications in commercial and industrial installations. The red/black color coding supports polarity identification during installation.

The wire features a 41/0.24 tinned-stranded copper conductor with a cross-sectional area of 1.85 mm<sup>2</sup>, rated for 300V and 80°C. The PVC insulation jacket measures 3.5x7.0 mm overall and meets the UL2468 flat cable standard.

No certifications have been confirmed in the available source data for this SKU. Installers should verify compliance requirements against applicable local codes prior to specification.
