

16 AWG 2-Conductor Cable, Black PVC Jacket, 300V, UL2464, 50 ft Roll

OVERVIEW

The CA2J-16-50 is a 16 AWG, 2-conductor cable supplied on a 50 ft (15.2 m) roll, intended for commercial and industrial wiring applications including LED driver connections, control runs, and general low-voltage power distribution.

The cable is constructed with stranded copper conductors (26/0.254 mm, 1.31 mm² cross-section) insulated in PVC with individual conductor colors of red and black. The overall jacket is black PVC with an outer diameter of 6.2 ± 0.15 mm. The cable is rated for 300V and 80°C continuous operating temperature.

This cable conforms to UL2464 and meets RoHS environmental compliance standards. No additional certifications are confirmed in available source data.

SPECIFICATIONS

Input voltage	300 V	Material	PVC
Operating temp	80 °C	Roll length	15.5 m
