

12 AWG 3-Conductor Flat Cable, 300V Rated, 20 ft Roll

OVERVIEW

The CA3-12-20 is a 12 AWG, 3-conductor flat ribbon cable supplied in 20 ft rolls. Conductors are color-coded white, red, and yellow, making polarity identification straightforward during installation. This cable is suited for LED sign wiring, power distribution runs, and similar commercial or industrial low-voltage applications where a compact, flat profile is required.

The cable is rated at 300V and 80°C. Conductors are tinned stranded copper with PVC insulation meeting RoHS 1.0 (6-substance) standards. Insulation passes a 2000V AC dielectric test and meets minimum tensile strength of 10.3 MPa with 100% elongation retention prior to aging.

This cable complies with RoHS 1.0 (6-substance) environmental requirements. No additional certifications are confirmed in available documentation.

SPECIFICATIONS

Input voltage	300 V	Roll length	20 m
