

12 AWG 3-Conductor Flat Cable, 300V 80°C, 50 ft Roll (White/Red/Yellow)

OVERVIEW

The CA3-12-50 is a 12 AWG, 3-conductor flat ribbon cable supplied in 50-foot rolls. Conductors are color-coded white, red, and yellow for straightforward circuit identification. This cable is suited for low-voltage LED driver wiring, fixture interconnects, and general commercial or industrial power distribution applications where a compact, flat routing profile is required.

The cable is rated at 300V and 80°C. Conductors are tinned stranded copper, and insulation is PVC. The flat 2468-series construction provides consistent conductor spacing and facilitates clean, organized wiring runs in panel, cabinet, or fixture installations.

This cable meets RoHS 1.0 compliance standards (6 substances). No additional certifications are confirmed in available documentation.
