

20 AWG 3-Conductor Flat Cable, 300V Rated, 20 ft Roll (Red/White/Green)

OVERVIEW

The CA3-20-20 is a 20 AWG, 3-conductor flat ribbon cable supplied in a 20 ft (6 m) roll. Conductors are color-coded red, white, and green, making it suitable for low-voltage LED strip wiring, sign interconnects, and other light commercial or display applications requiring a compact, organized cable run.

The cable is rated for 300V and 80°C operating temperature. Conductors are tinned stranded copper with PVC insulation. Per the 2468-series specification, the 20 AWG configuration uses a 34/0.14 strand construction with a nominal conductor diameter of 0.94 mm and a conductor resistance of 40 Ω/B # 0. Insulation passes a 2000V AC dielectric test.

This cable is manufactured to RoHS 1.0 compliance (6 substances), with PVC insulation meeting RoHS material standards. No additional certifications are confirmed in available documentation.
