

20 AWG 3-Conductor Flat Cable (W/R/Y), 1,935 ft. Roll

- 20 AWG, 3-conductor construction for power and signal runs
- Flat cable profile suited to routing in confined spaces
- Color-coded conductors (white/red/yellow) for easy ID
- Supplied in 1,935 ft. (590 m) continuous rolls
- 1-year warranty coverage

OVERVIEW

The CA3-20 is a 20 AWG, 3-conductor flat cable supplied in 1,935 ft. (590 m) rolls, designed for power and signal transmission in commercial and industrial applications. Its flat profile makes it well suited for routing in tight spaces, and it is commonly used in telecommunications, electronics, and automation systems.

The cable is color-coded for straightforward conductor identification during installation. Each roll provides sufficient continuous length to reduce splice points on most projects, supporting cleaner runs and more accurate material cost estimation.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
--------------	----------

ELECTRICAL

Wire Gauge	20 AWG
------------	--------

MECHANICAL

Length	590 m 1935.7 ft
--------	--------------------

ORDERING

Warranty	1 y
----------	-----

APPLICATIONS

- Telecommunications wiring
- Electronics assembly
- Automation system wiring
- Low-voltage control panel wiring
