

## 20 AWG 4-Conductor PVC-Jacketed Cable, 300V, 50 ft Roll

### OVERVIEW

The CA4J-20-50 is a 20 AWG, 4-conductor PVC-jacketed cable supplied in 50 ft (15.2 m) rolls. Built to UL2464 specifications, it is suited for general wiring, control circuits, and low-voltage signal applications in commercial and light industrial environments.

Each conductor is stranded copper (21 × 0.16 mm) with a cross-sectional area of 0.42 mm<sup>2</sup> and individual PVC insulation in red, black, green, and white. The overall jacket is black PVC with a nominal outer diameter of 5.5 mm. The cable is rated for 300V and 80°C continuous operating temperature, with a VW-1 flame rating per UL and FT1 per CSA as printed on the jacket.

This cable meets RoHS environmental compliance standards.

### SPECIFICATIONS

<b>Input voltage</b>	300 V	<b>Dimensions</b>	5.5 mm OD
<b>Operating temp</b>	80 °C	<b>Roll length</b>	15.5 m
