

## 20 AWG 6-Conductor UL1007 Hook-Up Wire, 300V, 100 ft. Roll

### OVERVIEW

The CA6-20-100 is a 20 AWG, 6-conductor UL1007 hook-up wire sold in 100 ft. rolls. Each roll includes six individually colored conductors — black, green, red, blue, yellow, and white — making it suitable for internal wiring of control panels, LED drivers, signage cabinets, and other commercial or industrial electrical assemblies.

Each conductor is constructed with 34/0.16 tinned stranded copper, providing a nominal conductor diameter of 1.08 mm and a DC resistance of 30 Ω/B # 0. The PVC insulation is rated for 300V and 80°C, with a dielectric withstand rating of 2000V AC/min. Insulation wall thickness is nominally 0.38 mm.

This wire meets RoHS 1.0 (6-substance) compliance standards. No additional certifications are confirmed in available documentation.

### SPECIFICATIONS

<b>Input voltage</b>	300 V	<b>Operating temp</b>	80 °C
