

14 AWG 2-Conductor Red/Black Wire, PVC Jacket, 300V, UL2464, 100 ft Roll

OVERVIEW

The CAJ2-14-100 is a 14 AWG, 2-conductor stranded copper wire supplied on a 100 ft (30.5 m) roll. Conductors are color-coded red and black with individual PVC insulation and an overall black PVC jacket, making it suitable for low-voltage power distribution, control wiring, and general-purpose commercial or industrial installations.

The cable is rated for 300V and 80°C, with a 41/0.24TS stranded copper construction providing a nominal cross-sectional area of 1.85 mm² per conductor. The overall jacket diameter is 8.0 mm. Both insulation and jacket are PVC, offering standard resistance to abrasion and environmental exposure in dry or damp indoor applications.

No certifications have been confirmed in the available source data. The cable carries a UL2464 designation as indicated in the product listing. Verify applicable local code compliance before installation.

SPECIFICATIONS

Input voltage	300 V	Dimensions	8.0 mm
IP rating	IP44
