

16 AWG 2-Conductor Red/Black PVC-Jacketed Wire, UL2464, 300V, 20 ft Roll

OVERVIEW

The CAJ2-16-20 is a 16 AWG, 2-conductor stranded copper wire with individual red and black PVC insulation and an overall black PVC jacket, sold in 20 ft rolls. It is suited for low-voltage power distribution, LED driver connections, control wiring, and general-purpose electrical installations in commercial and industrial applications.

The cable is rated for 300V and 80°C, with a 26/0.24TS stranded copper conductor construction and a nominal overall diameter of 6.2mm. The stranded configuration provides flexibility for routing in panel builds, junction boxes, and equipment wiring.

SPECIFICATIONS

Input voltage	300 V	Operating temp	80 °C
