

16 AWG 2-Conductor Red/Black PVC-Jacketed Wire, UL2464, 300V, 50 ft Roll

OVERVIEW

The CAJ2-16-50 is a 16 AWG, 2-conductor stranded copper wire supplied on a 50 ft (15.2 m) roll. Individual conductors are color-coded red and black with PVC insulation, enclosed in a black PVC outer jacket. It is suited for general wiring applications in commercial and light industrial installations where a flexible, jacketed multi-conductor cable is required.

The cable is rated for 300V and 80°C continuous operating temperature. The conductor strand configuration is 26/0.24TS with a nominal cross-sectional area of 1.18 mm² and an overall jacket diameter of 6.2 mm. Both insulation and jacket materials are PVC. The cable is manufactured to the UL2464 standard.

SPECIFICATIONS

Input voltage	300 V	IP rating	IP44
Operating temp	80 °C max
