

Graphtec Cutting Vinyl Blade 60 Degree Angle for Thick Media (15-Pack)

- 60-degree blade angle suited for thicker vinyl media
- Sold as a 15-pack for continued production runs
- Rated for 50,000 hours of service life
- Compatible with supported Graphtec cutting machines
- Backed by a 1-year warranty

OVERVIEW

The CB-GRAPHTEC-L-60 is a 60-degree cutting blade designed for use with compatible Graphtec cutting machines. Sold in a 15-pack, it is intended for sign-making and vehicle graphics applications where precise, clean cuts on vinyl materials are required. The 60-degree blade angle is suited for thicker vinyl media.

These blades are engineered for accurate cutting performance across a range of vinyl materials and are rated for an extended service life of 50,000 hours, reducing the frequency of blade replacement. Installation is straightforward and compatible with supported Graphtec cutting systems.

The blades carry a 1-year warranty.
