

Cutting Vinyl Blade, 56-Degree, Mimaki Compatible

- 56-degree blade angle for precision vinyl cutting
- Compatible with Mimaki cutting plotters
- Rated service life of 50,000 hours
- 1-year manufacturer warranty
- Straightforward installation and replacement to reduce downtime

OVERVIEW

The CB-MIMAKI-56 is a replacement cutting blade designed for use with Mimaki cutting plotters, intended for precision cutting of vinyl materials. Typical applications include signage, decals, banners, and vehicle graphics, where accurate, detailed cuts are required.

The blade is designed to maintain sharpness and cutting accuracy through extended use, supporting intricate designs across a range of compatible vinyl materials. Installation and replacement are straightforward, minimizing equipment downtime during blade changes.

The blade carries a 1-year warranty and a rated service life of 50,000 hours.
