

## Cutting Vinyl Blade for Roland Cutters, 45-Degree, Adjustable Depth

- 45-degree cutting angle for precise vinyl cuts
- Compatible with Roland vinyl cutters
- Adjustable cutting depth for varying material thicknesses
- Rated for 50,000-hour service life
- Backed by a 1-year warranty
- Simple installation and blade replacement design

### OVERVIEW

The CB-ROLAND-45 is a 45-degree cutting blade designed for use with Roland vinyl cutters, intended for professional sign making, graphic design, and fabrication applications. It is compatible with a range of vinyl materials and accommodates varying material thicknesses.

The blade supports adjustable cutting depth settings, providing control and repeatability across different media. Its design allows for straightforward installation and replacement, reducing downtime during production runs.

The blade carries a 1-year warranty and is rated for a 50,000-hour service life.
