

Heat Shrink Butt Connector, 5.0mm OD, 38mm Length, 14- 12 AWG, Black, 5 - Pack

- Wire gauge range 14 - 12 AWG
- Outer diameter 5.0mm for compact wire runs
- Overall length 38mm per connector
- Black finish for consistent identification
- Packaged 5 pieces per bag

OVERVIEW

Heat shrink butt connector crimp terminal used to join two wire ends into a sealed, insulated splice. Suited for electrical wiring repairs and installations in commercial, industrial and residential settings where a moisture-resistant connection is required.

Sized for 14 - 12 AWG wire with a 5.0mm outer diameter and 38mm length, the heat-activated adhesive-lined sleeve shrinks around the crimp to seal out moisture and provide strain relief. Finished in black, each bag contains 5 pieces.

SPECIFICATIONS

ELECTRICAL

Wire Gauge * 12 AWG

MECHANICAL

Product Dimensions 5.0mm OD x 38mm L

Finish Black

APPLICATIONS

- Automotive wiring repair
- Marine electrical connections
- Industrial control panel wiring
- Low-voltage lighting installations
- General electrical maintenance splices
