

## Press-On Wire Connector, 1–4 Port, 250V 32A, 10–28 AWG

### OVERVIEW

The E-CON-P-14 is a 1–4 port press-on wire connector designed for fast, tool-free terminations in commercial and industrial wiring applications. It accommodates both soft and hard wire conductors, making it suitable for a range of field wiring tasks including fixture connections, junction points, and panel wiring.

The connector is rated for 250V and 32A, with a PC housing and nickel-chromium alloy steel spring contacts. Soft wire acceptance ranges from 24–10 AWG (0.08–4mm<sup>2</sup>) and hard wire from 24–12 AWG (0.08–4mm<sup>2</sup>). The unit is rated for ambient temperatures from -40°C to +105°C, and requires a stripped wire length of 8–12mm for proper seating.
