

Waterproof Terminal Box, 2 Port, PP/PC Housing, Black, Double Insulated

- PP/PC molded enclosure for electrical insulation and wiring protection
- Two-port body for inline conductor terminations
- Double insulation construction throughout the housing
- Waterproof and dustproof sealing for wet and submerged locations
- Black finish with secure locking mechanism and labeling surface
- Supported by a one-year warranty

OVERVIEW

The E-CON-S-2P-BK is a 2-port insulated waterproof terminal box designed for electrical connection protection in demanding environments. It is suited for industrial installations and applications requiring resistance to moisture, including underwater use.

The enclosure is molded from PP/PC in black and provides double insulation along with waterproof and dustproof protection for enclosed conductors. Its compact form factor incorporates secure locking mechanisms and supports clear labeling to simplify installation and ongoing maintenance.

Covered by a one-year warranty.
