

DC 5.5mm Female Plug with Inline Switch and Male Plug End, 1 - Year Warranty

- Standard 5.5mm DC barrel connector for broad device compatibility
- Integrated middle switch for inline on/off power control
- Female input jack paired with male plug output end
- Backed by a 1 -year manufacturer warranty

OVERVIEW

The E-SW-J-P5.5 is a DC 5.5mm inline power connector assembly combining a female input jack, an integrated midline switch, and a male plug output. It is intended for use in low-voltage DC power circuits where a simple, accessible on/off control point is needed between a power supply and a connected device.

The inline switch provides direct power control without requiring modification to the host device or power supply. The 5.5mm barrel connector format is a widely used standard in LED drivers, control equipment, and low-voltage electronics, supporting compatibility across a broad range of applications.

The device is backed by a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
