

Ultrasound Head Cleaner, 110V AC, Adjustable Cleaning Parameters

- Operates on 110V AC power supply
- Adjustable cleaning parameters for different ultrasound head types
- Onboard interface for monitoring cleaning progress
- Integrated safety features for controlled operation
- 50,000 -hour rated LED lifetime
- 1 -year manufacturer warranty

OVERVIEW

The EQ-CD3800 Ultrasound Head Cleaner is a professional-grade device designed for cleaning and maintaining ultrasound transducer heads in medical settings. It uses ultrasound technology to remove dirt, debris, and contaminants, helping to reduce the risk of cross-contamination between uses.

The unit operates on 110V AC power and features adjustable cleaning parameters to accommodate different ultrasound head types. An onboard interface allows users to monitor cleaning progress, and integrated safety features support consistent, controlled operation. Construction is intended for durable, repeated use in clinical environments.

The cleaner is backed by a 1-year warranty and rated for a 50,000-hour LED lifetime.
