

Mug Heat Press, 380W, 120V, 7–12 cm Diameter Capacity

- Operates at 120V with 380W power draw
- Accommodates mug diameters from 7 to 12 cm
- Even heat distribution across mug surface for consistent transfers
- Integrated temperature control and overheat protection
- Backed by a 1-year warranty

OVERVIEW

The EQ-HP-Mug is a dedicated mug heat press designed for applying custom graphics, text, and designs to cylindrical mugs in commercial and light industrial customization applications. The adjustable clamping mechanism accommodates mug diameters from 7 to 12 cm, supporting a range of standard mug sizes in a single unit.

The unit operates at 120V and draws 380W, with even heat distribution across the mug surface to support consistent transfer results. Integrated temperature control and overheat protection are included as standard safety features.

The unit carries a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
