

4-in-1 Multi-Function Heat Press, 15 in x 11 in, 350W — T-Shirt, Mug, Cap & Plate

- Supports four press functions: T-shirt, mug, cap, and plate
- 350W power rating for consistent heat output
- 15 in x 11 in platen surface area for large-format transfers
- Rated component lifetime of 50,000 hours
- Backed by a 1-year manufacturer warranty

OVERVIEW

The EQ-HP4in1-110V is a compact, multi-function heat press designed for commercial and hobbyist customization applications. It supports four substrate types — T-shirts, mugs, caps, and plates — making it a versatile single-unit solution for promotional merchandise, personalized gifts, and custom dishware production.

The unit operates at 350W and features a platen sized at 15 in x 11 in for uniform heat distribution across the transfer surface, supporting consistent output across supported media types. The rated component lifetime is 50,000 hours.

The unit is backed by a 1-year warranty.
